Telephone Boys Return to Work at Increased Salary.

The young men of the telephone exchange, with two exceptions, returned to their places last night. The company acceded to their demand of a horizontal raise of wages of \$5 per month. Two of the boys, Frank Hawthorne and Henry Dawson, refused to return on any terms under the new management and as a consequence will earn a livelihood in some other way than by plugging holes on the switchboard.

Tom Holstein was the head man in the negotiations between the strikers and the telephone company. He has been warmly congratulated on the ability displayed in engineering the strike to a successful issue.

Koebele Returns From Kauai.

Entomologist Koebele returned Sunday from his tour of inspection on Kauai. The main object of his trip was to look into the ravages of the cane borer. He reports a vast improvement in the cane as compared with a year ago. The loss from the borer will be slight this season. Dr. Koebele is also making notes on his tour of forest conditions and will have an interesting and important report to make at the close of the year.

We Have All the Brands Here.

[From the Omaha Bee.]

Eulogistic remarks about the American brand of civilization on tap in Hawaii were shot in this country while the subject of annexation was under discussion. Honolulu papers of the present day picture it in less attractive colors. Divorce courts are running double time to keep up with business, and the orgies of protected female slave pens are rich enough to command double-column sing heads in the press.

The anticipated trouble between the Brotherhood of Teamsters and the Draymen and Teamsters' association of San Francisco has been averted by the concession of employers, which grants to the teamsters the scale of wages demanded by them and the reduction of the working time to twelve hours, with an allowance for all overtime.

The Speedy Waterwitch.

Commodore Archie Young gave a party of friends an outing in his new launch Waterwitch on Sunday. The little vessel was greatly admired by all on board and proved herself to be the speedy craft she was expected to be. Her forty-horse power Union gas engine drove her from the Healan boat house to Clarence Macfarlane's place on Pearl harbor in about an hour. From the time the entrance to the harbor was reached until abreast of Ford's Island the engines were kept at half speed. On the way back to the city the Waterwitch showed that in a seaway she is a comfortable little vessel.

Steyn's Influence Too Great.

LONDON, Oct. 1.—An interesting report comes from Komatipoort to the effect that Mr. Krueger, in a letter to his wife announcing that he is going on a six months' holiday, said, in substance, that after the capture of Machadopolis he knew the struggle was hopeless and counseled moderation, but that Mr. Steyn's "arbitrary behavior overruled his counsel."

Metz Removed From Office.

Harold J. Metz was dropped from the pay roll of the federal government yesterday. He is no longer deputy United States marshal. His head was cut off by Judge Estee yesterday morning. The order reads that Daniel J. Hag, United States marshal, requests the removal of Harold J. Metz from office owing to absence from his post of duty.

Larsen's Horse in Court.

Bill Larsen is going to have a fight to keep his horse which he gave to a Chinaman to shoot because he thought the animal had the glands. The Chinaman, instead of killing the horse, took it home and nursed it and found that it was just suffering from nervous prostration instead of glands. After the horse recovered its health it wandered back to Bill's barn one day and Bill concluded that it was a ghost horse, but he kept it just the same. Now a back man named Beckman, who claims to have bought the horse for \$100, wants it back, but Bill has it in his possession and his motto is "Possession is nine points in the law." There is liable to be a lively little law suit before the ownership of the animal is decided. Judge Dickson will hear the case.
